

SEYMOUR DAILY REPUBLICAN.

VOLUME XXIX NO. 162

SEYMOUR, INDIANA, FRIDAY, JUNE 17, 1910.

PRICE TWO CENTS

YEGGS CRACK SAFE AT BREWERSVILLE

Postoffice and General Store Entered and Robbed of \$400 and a Supply of Stamps.

NO CLEW TO GUILTY PARTIES

Seymour Police are Asked to Watch for Men the Citizens Have Under Suspicion.

The postoffice and Stearns' general store at Brewersville, Jennings county, were robbed Wednesday night of about \$400 in money and a few stamps. The postoffice is located in the Stearns store and Joseph Stearns is postmaster.

The thieves, who it is believed, are members of the gang that have been working in this vicinity for several weeks, secured tools from a Big Four section house and then broke into the postoffice.

The safe, which was one of the ordinary iron office safes, was blown open by a charge of nitroglycerine and the booty secured. The safe was blown into pieces by the heavy charge and portions of it went entirely through the roof of the store.

In the safe were checks, stamps and money amounting to about \$400. Tuesday was pay day on the Big Four and Mr. Stearns had taken in several railroad checks. These were endorsed to him and could be cashed by the burglars. Two suspicious looking characters were seen in Brewersville during the day Tuesday and in the afternoon they went into Dr. Adams' store and purchased some soap. Soap is used by all safe blowers where nitroglycerine is used, and the inhabitants believe that this is strong evidence that these are the guilty parties. The two men have not been seen near Brewersville since that time.

Joe Stearns, the proprietor, was in Indianapolis and was not informed of the robbery until some time Thursday. In the meantime his brother, Isaac, took up the matter and telephoned to all surrounding towns to not cash the checks. He has the numbers of all of them and they may yet lead to the capture of the "yeggs."

The Seymour police have been notified of the robbery, and were asked to watch for suspicious characters who answer the description of the men seen before the robbery occurred.

The night before the Brewersville robbery yeggs entered the poultry house of Goyert & Vogel at North Vernon a few miles from Brewersville. The safe was blown open by the robbers, but as the manager keeps no money in the safe the burglars secured nothing of value.

Celebrates Birthday.

David A. Roaney is quietly celebrating his 77th birthday anniversary today, and is receiving the congratulations of his friends. He was born in Switzerland June 17, 1833, and came to the United States May 5th, 1850. He is a veteran of the civil war, having served five years in the Civil war in the United States regular infantry. Mr. Roaney is well known in this city and has many friends who wish him continued health and prosperity.

REACH NEW YORK.

Abernathy Boys Arrive at Destination On Scheduled Time.

The two Abernathy boys who passed through Seymour a few days ago on their long journey from Oklahoma to New York, have reached their destination.

As the two tried bronchos halted in front of the Hotel Bresin fully 1,000 persons massed about them and joined in the cheer. "Jack" Abernathy, United States marshal of Oklahoma, and proud father of the lads, hustled them to their rooms to prepare for dinner.

From the moment they reached the city, the little rough riders were the recipients of a continuous reception. They rode off the ferry boat that brought them from Jersey City into a veritable mob. It took six mounted policemen to clear the way and a constantly growing crowd fell behind.

The purpose of the boys' long ride was to be in New York to join in the welcome to Theodore Roosevelt on his return next Saturday.

Another Attraction Booked.

The committee on attractions for the Fourth of July and military jubilee are busy now and booking new attractions almost every day. A contract was closed today with Roscoe Clawson, a trick bicycle rider, who has been traveling with the Norse & Rowe circus. Another attraction will probably be booked today or tomorrow, which is expected to be perhaps the greatest, or one of the greatest, that been contracted to date. It will not be many days till Manager W. L. Johnson, who has charge of the attractions and is taking very great pains in selecting them carefully, will be ready to announce the bulk of the program.

Ice Cream Parlor.

We will open an ice cream parlor Saturday in connection with our bakery, corner Ewing and Second streets. Your patronage solicited. Phone 132.

THE SANITARY BAKERY.

Engine Derailed.

The wrecking crew was called to Hayden about 11 o'clock last night to replace an engine which had been derailed. The track was cleared and the crew returned here about 3 o'clock this morning.

C. of H. Notice.

Court of Honor members urged to be present tonight. Ladies bring thimbles.

Smoke "El Como" 5c cigar. j23d

Broom corn and tobacco will be cultivated extensively by the farmers in southern Indiana this season. On account of the rapid advance in the price of broom corn and comparatively recent discovery that tobacco can be grown at a good profit on southern Indiana soil, the farmers have become interested in these commodities. Several farmers in this county, it is said, are planning to raise tobacco next year, and determine whether it is a profitable crop for this section of the state.

WILL CONSIDER COURT HOUSE BIDS

Sealed Proposals On Improvement Will Be Received Until Eight O'clock Saturday Morning

PLANS FOR LARGER BUILDING

Central Heating System May Be Installed for Court House, Jail and County Poor Farm.

According to the plans of the county commissioners, sealed proposals for the remodeling, improving and erecting additions to the court house at Brownstown, will be received at the auditor's office until 8 o'clock Saturday morning. The plans and specifications are on file at the auditor's office, where they have been examined by a number of competing bidders. The notice to contractors provides that each bid shall be accompanied by a non-collusion affidavit as provided by law, and a bond equal to such bid. The bond must be signed by at least two freehold sureties, residents of this county. The contract will probably be awarded in the morning.

The specifications provide for several important changes in the present court house, and when the contract is completed the building will be arranged much differently from the way it is at the present time. Two large additions will be erected, one on the east and one on the west side of the present building. The improvement will give more office room for the county officials, who declare that their quarters are too small at this time. The clerk's office and recorder's offices will be enlarged, occupying the section which will be erected on the south of the building. The treasurer and auditor will have larger rooms on the north side of the building.

The officials declare that they have no place at this time to file records, and that many valuable papers are now being stored in the basement and attic and that they are becoming damaged. The contract for the improvement provides that large steel safety boxes shall be constructed in the auditor's office, where such records may be stored and preserved in better condition. Steel cases will be also constructed for the treasurer's records.

The court room will be remodeled and the rooms for the officers of the court rearranged. The private office of the circuit judge will be in the south wing of the new addition, and adjoining this room will be the library. There will be an entrance from the judge's room to the library, besides one from the corridor west of the library. The jury room will also be on the second floor, as will the office for the county superintendent.

The interior of the building will be much more attractive than the old building. Supporting the ceiling in the corridor on the first floor will be large marble columns, such as are found in many of the public buildings of the state. The interior decoration will also be attractive and add to the beauty of the new building.

The new additions which are to be erected on the north and south sides of the building will be of pressed brick and the old building will be resurfaced with the same kind of brick, giving the building the appearance of being entirely rebuilt. The front of the building will be constructed of stone, which will give the building a very attractive appearance. The tower on the present structure will be

moved to the front of the new building, which the architect believes would add to the appearance.

The county commissioners have not yet decided upon the heating plant, which will be installed. It has not yet been determined whether a single plant will be installed or whether a central system will be constructed, by which the court house, poor farm and county jail may be heated from the one plant. A system was installed in the court house only a few years ago, but was never satisfactory. Besides using a large amount of fuel, the building was never well heated. It is said that a central system can be installed which would be economy for the county, as a less amount of coal would be required to heat the three buildings than would be used if each plant was run separately. The central system, however, will cost considerably more than the heating equipment for the court house alone. The commissioners will probably decide upon the heating plant within the next few weeks, so that if a system is placed in the court house it can be installed while the improvement is being made.

The architect stated that the building should be completed by January 1. As soon as the contract is awarded the successful contractor will begin work on the building immediately, so that there will be no delay.

No bids for the proposed improvement had been filed at 3 o'clock this afternoon, but there are a number of contractors at Brownstown, who, it is said, intend to submit proposals on the work. The bids will probably not be filed until just before the auditor's office closes this evening, or, if an opportunity is given in the morning, the contractors may not file their estimates until a short time before the closing hour.

GERMAN LUTHERAN SCHOOL CELEBRATES ANNUAL PICNIC

Children Preceded by Band, March In a Body to the City Park for Big Event.

The annual picnic of the German Lutheran school is being held at the city park today, attended by a large number of members of the church and visitors. The children, preceded by the Seymour Military band, left the school about 1 o'clock and marched in a body to the park.

The afternoon program consisted of music and drills by the members of the school. In the evening a band concert will be given, besides selections by the choirs of the church.

The entertainment this evening will be arranged for the public and a general invitation is given to all who desire to attend.

Berries and pineapples at the Model Grocery.

Charles Walters, of this city, recently delivered an address before an audience at Moores Hill concerning his experiences on the railroad. His talk was greatly enjoyed by those present and pronounced as one of the most interesting ever given at that place. A lengthy article regarding his address was published in "College Life," a paper by the Moores Hill students, and spoke very complimentary of his address.

This is the hottest day of the summer, the government thermometer registering 91 degrees in the shade about 2 o'clock this afternoon.

OATS STAMPED "B" PUZZLE FARMERS

Blades of Plant in Jackson County Fields Marked in Mysterious Way.

MANY BELIEFS AS TO MEANING

It Has Been Suggested that Letter Stands for Beveridge and Indicates His Reelection.

The farmers of Jackson county as well as those throughout the state desire to know the significance of the letter "B" which is plainly visible upon every blade of oats. The letter appears just above the center of the blade and is as clearly defined as if it had been made with a die. The strange marking it seems, is not found in certain fields of localities but may be seen on any blade anywhere in central Indiana. Farmers from all over the county have reported that they have noticed the mysterious letter upon the oats blade, but are unable to state what it means.

It is suggested that it stands for Beveridge, and his popularity is evidenced by the fact that the letter is stamped on the oats throughout the state. Others declare that the letter is a final memorial of the brilliant defeats of William Jennings Bryan.

The farmers scout at the idea that the letter indicates "bad," as some have contended, for the oats are in fine condition, and it is expected that there will be one of the best crops ever raised in Indiana.

A Muncie saloon keeper, who was voted out of business at the local option election, and who expects the "wets" to win next time, says the "B" simply means "Booze in the Bottle, on the Bar or in the Barrel," but the "drys" ridicule this theory by asserting that "dry" Muncie now has a plentiful supply of "booze" as shown by the numerous arrests of blind tiger operators and that a prophetic sign would be unnecessary.

One man who is regarded as authority, said that there was nothing new about the appearance of the letter upon the oats for ever since he could remember that letter has been seen, especially upon oats of rank growth, and is seldom seen in fields where the oats are short. He declared that the letter was caused by the manner in which the blade is creased as it grows from the stalk. In this county the letter is seen upon the blades of some of the best oats ever raised in this vicinity.

Another explanation of the letter is that it appears every seventeenth or locust year. It is said that the last time it was seen was in 1893. One man stated that just before the war a mysterious "W" was noticed on the blades, and this was taken to mean war. However, it is said that the letter appeared in what is commonly known as a locust year. Formerly locust years meant much loss to the farmers, but more lately the locusts have not done much damage to the farm products.

MITCHELL CITIZENS SAY THEY WILL GET DIVISION

Believe That B. & O. S-W. Officials Are Planning to Redistrict Railroad.

The citizens of Mitchell feel positive that the officials of the B. & O. S-W. are making arrangements to redistrict the road and that their city will be the terminus of one of the new divisions. They base their belief upon the fact that several surveyors have been working near there for some time, which they believe to be an indication that the company intends to buy land near that town.

In regard to the survey the Mitchell Commercial has the following: "The B. & O. S-W. surveyors finished their work Saturday evening and have returned to Cincinnati. They have been here about ten days running lines, setting stakes and taking measurements. What the ultimate outcome will be we cannot say, but this work has not all been for nothing. The company has an object in view, and what that is will probably be known in a short time. The impression seems to be general that the road is to be redistricted from Cincinnati to St. Louis, and the impression is also pretty general that Mitchell is to be made a division point. Time will soon tell.

Exercises Postponed.

The Children's Day exercises, which were announced for next Sunday have been postponed on account of the absence of the pastor, Rev. H. H. Allen, who was called to Sullivan on account of the serious illness of his mother, Mrs. B. A. Allen. The exercises for the children will probably be held one week later, Sunday, June 26th.

Wedding Anniversary.

Mr. and Mrs. F. W. Wesner are quietly celebrating their seventh wedding anniversary today. A large number of their friends have extended congratulations and called upon them during the day. This is also the seventy-seventh birthday anniversary of Mr. Wesner's father, Benjamin A. Wesner, of Washington county.

BUY YOUR GOODS AT HOME

We, the Undersigned Merchants and Business Men of this City, Respectfully Solicit Your Trade, and Hereby Agree to Duplicate any Price made by any Mail Order House Anywhere, Cost of Freight Added and Quality Considered.

We will do better than that on large orders, save you the considerable item on freight. Bring in your bills showing the amount of goods and the quality you desire and get our prices.

After we have given you figures and you do not find them satisfactory we will not ask you to buy from us. All we ask and all that you can ask—a square deal all around. We make this offer in a spirit of fairness and with a view of getting your trade on legitimate lines.

We are a part of the common household that constitutes this great county. We are mutually dependent upon each other for prosperity and we cannot exist as a prosperous, progressive community without the harmonious relations that should exist in one large family. We have our capital invested here. It is a part of the common wealth of the community, contributing its share toward the payment of taxes, toward the support of schools and churches, toward the creation of substantial values for farm property and toward the highest welfare of all our people.

It is a matter of common knowledge that a large sum of money is being diverted from the local channels of trade annually and being sent to the mail order concerns of the large cities by many of our citizens. This money is forever lost to the county and represents a drain that can never be filled. The goods that are purchased of such houses can be as cheaply purchased here and all that we ask is an opportunity to convince you of the truth of this. Try us on your next order.

All who have the welfare of the city and county at heart are respectfully urged to assist us in defending the common welfare of our town and county against the encroachment of this evil by doing their trading at home, by supporting all our local business and industrial institutions, all things being equal. It will help every one of us. No person in the county, however obscure his station, will fail to enjoy the benefits that are sure to accrue. It is a fight against one of the most iniquitous systems of modern business graft.

THE SEYMOUR REPUBLICAN Does "Printing That Pleases"

Every Dollar You Spend With the Above Merchants You Will Have a Chance To Receive Back From Them In Exchange For Your Labor or Your Produce. A TRIAL WILL PROVE IT.

The Mail Order Citizen

Of what value is the mail order citizen to a community? He is of no value whatever. He's simply occupying space that could be better filled by the right kind of a citizen, and the sooner a funeral occurs in some instances, the better off will the town be.

While it is true that the principal patrons of the catalogue houses are farmers, there are many town people who seem to prefer sending their money to the mail order houses instead of keeping the cash at home.

One class of mail order patrons is the class composed of retired farmers, who move to a town to spend their remaining days, after acquiring a competency from the products of their farms. They buy a piece of property and build a cheap house and then settle down for a good, long rest. They are not made of the get-up-and-get-there spirit. They are sleepy, and every time a proposition comes up that is for the advancement of the town, they vote against it. They want no waterworks, no gas plant, no fire department, no brass band or anything else that is for the good of the community. They simply want to exist, and if they do need anything for their home, they'll spend four hours in scanning the agate type in the big

catalogues sent to them by mail order houses and then hurry to the postoffice to send the cash with the order. On the way home from the home grocery they will stop at the home grocery to buy sugar and "call the merchant down" because they can't get twenty-two pounds for a dollar, when that same sugar costs the merchant \$5.25 a sack.

The mail order citizen is not a valuable addition to any community. He does not help to build up the town. but, on the other hand, he is ready and willing to tear it down. Perhaps they'll change their tactics some time, but—Well, yes, perhaps.

Mail Order House "Food"

The Minnesota dairy and food commission in a special bulletin says:

The national pure food law which becomes operative January 1, 1907, will, if rigidly enforced, correct the abuses which now exist in the transaction of the mail order business. The state law does not operate against mail order houses, but the National law will operate against them, preventing the shipment of adulterated or misbranded goods from one state into another.

Following up the work which this

department has instituted, we call attention to the following analyses of groceries shipped into this state within the last thirty days by mail order houses. The reports just as received from the laboratory are as follows.

Lab. No. 611—Catsup. "Doris" brand. Shipped by Sears, Roebuck & Co., Chicago, Ill. Illegal. Colored with coal tar dye. The law does not permit any kind of color.

Lab. No. 113—Green fruit color. Shipped by Montgomery Ward & Co., Chicago, Ill. Illegal. Sample is a coal tar dye.

Lab. No. 1331—Extract of cinnamon, "Serorco" brand. Shipped by Sears, Roebuck & Co., Chicago, Ill. Illegal. Colored with coal tar dye.

Lab. No. 435—Cream of tartar. Sold for pure. Shipped by Montgomery Ward & Co., Chicago, Ill. Illegal. Sample is an imitation cream of tartar. Contains no cream of tartar.

Lab. No. 1332—Extract of winter green. Shipped by Sears, Roebuck & Co., Chicago, Ill. Illegal. Can not be labeled as required by law.

Lab. No. 9—Evaporated cream, "Highland" brand. Shipped by Sears, Roebuck & Co., Chicago, Ill. Illegal. Sample is simply evaporated milk.

Lab. No. 791—Colored sugar. Shipped by Montgomery Ward & Co., Chicago, Ill. Illegal. Sample is colored with coal tar dye.

Ways and Means

Proprietors of Mail Order Houses tell us that in that mammoth concern we witness the evolution of the times. That it is a survival of the fittest, and that they have come to stay. That might makes right. That they have got the small retailer laid across the gutter, that they may pass over without soiling their shoes. That they propose to keep him in his present precarious position. This and much more is what they tell us by their arrogance. There was a time when we were taught to believe that men were endowed with certain inalienable rights but a shadow of doubt has been cast upon this declaration by the advent of the Mail Order House. So great a menace has this become that the whole country is aroused and the citizens of a dozen states are organizing to protect themselves from the encroachment of these cuttlefish. One of the means of defense pro-

posed is by legislation. There has been some doubts expressed as to the constitutionality of laws regulating private business, but is there any such thing as a private business? A business must necessarily be public and exerts some influence, either good or bad, upon the community. This being true it must needs be amenable to law. With laws regulating these predatory institutions must also come a public sentiment educated up to the plane of the law. No law is operative without public sentiment back of it. The people must be shown that it is not for their interests to patronize the Mail Order Houses. This is true and susceptible of proof, as shown in this article.

The biggest reservoir in the world will go dry eventually if it leaks just a drop at a time. If the farmer sends his money to "cat" concerns, he is damaging his home town. The "leaks" cause the town to become a poor community in which to live, and as a result the farmer's land decreases in value. A poor market town is de-

morralizing to the adjacent territory. The farmer should help to build up the community. If that community is good enough to buy the farmer's products and it is good enough for him to make his money in, it should be good enough for him to spend his money in.

YOUR Home Town is
one of the best towns in the State and has a number of progressive merchants, as will be shown on the next page. The reason you should support them is because they support you.

Help those who help you.

Now, Are You Treating Them Fair?

Now, in all fair dealings, is it right to ask your local merchant to take your eggs, butter, beans and potatoes, which are all perishable articles, in exchange for his goods, then send your cash money out of town to parties who do not help you a dollar or let you have any goods, if you did not have the money to send?

"When you have nothing in hand to exchange, to whom do you go for accommodation until some uncertain time when you can pay?"

"Do you always find our home merchants ready and willing to let their goods go on promises, not guaranteed notes, but verbal promises, trusting to your good luck in meeting the obligation?"

How many farms have been paid for by your merchants advancing both the goods necessary to keep life in the body and cash to meet that dreaded interest on the mortgage?

I asked some of our merchants if any of their customers ever asked them to name quantity price of goods, and the reply was the same, that they had no chance to figure. Is this fair?

Would you like it under the same conditions? Would you trust your merchant in the same way he trusts you? I am afraid he would have a poor show for a living if he had to be trusted.

Now, I know that you do not feel that your merchant is a robber or a cheat, but like us all the prices appeal to you and without thought you order from these outside houses without giving them a chance.

The most of the goods I have seen come from these houses could not be sold by your merchant at prices those houses get, simply for the reason that you could compare the goods with others of the same kind which were much better for the price asked and your judgment would rather pay more for an article you could see would give you more value.

You will find your merchant ready and willing to figure with you for

spot cash in quantity even if you do owe him a bill past due and you are not ready to meet it. The trouble with almost all of us is that we lack moral courage to come out and face things which we think will be unpleasant.

Do you presume your credit or standing in your community is improved by shirking things you know you ought to do. Do unto others as you would be done by, then you will find things not as bad as they seemed before.

Anything to Get Trade.

In an attempt to divert suspicion from himself the pickpocket joins in the throng and calls "Stop, thief," as loudly as any one. Look through the mail order catalogues and you will find that practically all of them will tell you that they are the cheapest place to buy, that they have the best facilities.

Apply The Golden Rule.

Some of our readers may be tired of reading the articles we have been publishing against the patronage being given the mail order houses by many of our patrons. It is utter foolishness on the part of any one to suppose that these houses are doing business for mere pleasure. See the reports of the large fortunes the proprietors have made selling you goods (at a profit of course) that you could have bought at home (cheaper, freight considered) and helped to build up your own home town. Have a little local pride; don't be scared to death for fear some of your neighbors will make a little money, just the very thing you are selfishly trying to keep him from doing and do yourself. Apply the golden rule at home.

YOUR HOME BANKS.

Don't send your money to mail order houses to deposit. Your Home Banks are the only safe places to keep it and they will pay you as good interest as can be had, and then you run no risk, as in such cases as the "Cash Buyer's Union" failure and the "People's Mail Order Bank," of St. Louis. The home banks will grant you favors, and mail order houses never do.

What Gov. Folk Says.

Governor Folk's address to the retail merchants of Missouri at their convention was the feature of the session. The governor said:

"We our proud of our splendid cities, and we want them to increase in wealth and population and we also want our country towns to grow. We wish the city merchants to build up, but we also desire the country merchants to prosper. I do not believe in the mail-order citizen. If a place is good enough for a man to live in and to make his money in, it is good enough for him to spend his money in."

"No merchant can succeed without advertising in one way or another. Patronize your town papers, build them up and they will build the town up and build you up increased trade and greater opportunities. Do not be afraid that business is going to be hurt by the recent exposures of wrongdoing in the commercial world. No man who is doing an honest business can be injured by the light. All business will be better for the cleansing process it is going through and for the stamping out of evil."

Home Trading Cheapest.

Never send away for goods you can buy at home. Every time you send a dollar to a mail order house that dollar, as far as you and your community are concerned, is practically out of circulation. Your home merchant is the one who helps to keep up your schools, your churches and your town. He is the one who deserves your trade and not some catalogue house in Chicago.

Buying your goods away from home you deal with strangers. Buy from printed description. Send money in advance. Wait for goods and fret. Pay freight and charges. Complain of errors. Always pay full regular prices. Support city stores. Always pay spot cash in advance.

Buying here at home you—Deal with neighbors. Buy with goods before you. Pay when you get the goods. Work and make money. Get goods delivered free. Return goods if not right. Build up your home store. Help build up your home town by spending your money at home. If you want a favor you do not go to the city store to ask for it.

What Mail Order Houses Will Not Do.

The mail order business is the quack doctor of commerce. It promises much and guarantees nothing. Like patent medicine the directions are always on the inside and you have to buy a non-returnable package before you can find out what they are.

"No mail order house helped to build the little white school house in your district or turnpike the road just past your door. No mail order house ever took you by the hand when you were in distress and told you to let that little account go until after harvest next year. No mail order house ever sold you a vehicle and spent every cent of its profits right in the community where you and your neighbors could get it all back again. No mail order house ever shoved its patent leather shoes under your table and rejoiced with you when you were glad, nor spoke encouraging words in affliction, nor stood with uncovered head beside the graves when your children died.

No, the mail order house is after money. Every dollar it gets its hands on will be jerked out of your neighborhood forever. The mail order house may bear upon its face the semblance of friendship, but no human heart beats under its cloak of hypocrisy. Sentiment to it is unknown. The whole institution is as cold and bloodless as a corpse.

All the mail order houses in Christendom would not increase the value of your farm a cent. They are parasites to whom life is only possible as long as they can suck blood out of the communities, to the upbuilding of which they contribute nothing. They create no local market for the products you have for sale. They have no property in your county which can be assessed to help bear your burden of taxation.

Your local dealer needs neither advocate nor defense. His methods rest upon principles that have built up in this country a system of internal commerce which is the marvel and admir-

ation of the world. His business is legitimate because its success contributes to the general prosperity of the community that built it up.

Your local dealer stands ready to duplicate every offer so seductively set forth in the catalogues of mail order houses and more, he will trump the best trick the mail order house ever played if you will put down spot cash and accept from him a class of goods devoid of respectable ancestry, and upon which no reputable manufacturer will place his name. He can sell cheap goods, too, if you will buy them from him with your eyes shut. He can meet the best price ever made by a mail order house if you will plank down the money and accept what he gives you without question and without recourse; but you must not expect him to be in his place of business every day in the year ready and willing to make good any defect, ready and willing to stand back of every article he sells with his own reputation and the warranty of a responsible company.

Honestly, now, don't you really pat yourself on the back when you spend your money in such a way that in supplying your own wants you help build up the neighborhood in which you live? Of course you do, and you act on that idea yourself, but the trouble is you don't talk it enough to your friends.

Stand by your local dealer as he stands by you with his time, his skill and his money. He helps to build up the community and he makes it a better place for you both to live. His own success depends upon your prosperity. He has no use for mavericks—unbranded junk. He swears by the goods branded with a trademark of the most skilled manufacturers on earth—goods the like of which no other generation ever saw, and he has an abiding faith in the theory that the best vehicles in the world today are none too good for that major general of all the industries—the American citizen.

Judge Appellate Court, First District—Cassius C. Hadley, Danville; Ward H. Watson, Charlestown.
Judges of the Appellate Court, Second District—Daniel W. Comstock, Richmond; Joseph M. Rabb, Williamsport; Harry B. Tuthill, Michigan City.

Tomorrow morning the eyes of the nations will be on the landing in New York of the foremost citizen of the world. More than anything else Theodore Roosevelt has stood for a "square deal", and through his intense personality has forced his ideas on the world. He would not tolerate double dealing in politics any more than he would tolerate dishonesty in business. He stood always for the thing that is right, whether politically, morally or socially. The people believed in him because they knew he stood for the right as he saw it; and this is the secret of his strength. And this is the only lasting source of strength for any individual, party or nation.

LET HER RIP.

Boys will be boys and accidents will happen. We are the doctors for such cases and will do the repairing in the most skillful manner. We will Press, Clean and Color YOUR Clothes as well. One door east Traction Station. Phone 468.

TAKE BACKWARD
STEP FORWARDHouse Rules Committee Settles
All Differences.

ANCIENT USAGE IS RESTORED

By Returning to the Method Employed Seventy-Five Years Ago of Taking Any Measure From a Committee and Placing It on the Calendar, It Is Thought That Long Wrangle Over Present Procedure Will Have Been Silenced.

Washington, June 17.—There will be no row over the rules of the house between now and the end of the session, according to indications. Harmony of the most saccharine kind prevails through the house at present, and it is entirely within the bounds of probability that the rules committee may report the last and greatest rules reform desired by insurgents and Democrats, and that the amendment may be adopted without a dissenting vote.

When the committee on rules adjourned last evening after an all-day session there was an almost complete agreement on an amendment to the rules to provide for the discharge of any committee from the consideration of a bill after a certain time and under certain conditions. The final touches will be put to this amendment today, and it may be that before the speaker's gavel falls this evening this proposition, which threatened for a time to open the old wounds, stir up slumbering animosities and raise hob generally, will have been adopted by a unanimous vote and without a harsh word having been spoken.

Seventy-five years ago there was a method by which a committee could be discharged from consideration of any bill and the measure taken in the house by a majority vote. But the growth of the body and the country with the supposed necessity for more stringent rules of procedure in the house brought about its elimination. The movement now on foot will restore this ancient method and permit a majority of the house itself, not a quorum majority, to take from any committee any bill and place it on its appropriate calendar for action at the proper time. Parliamentarians, including Asher C. Hinds, the parliamentarian of the house, consider this a decided backward step forward.

The resolution which will be reported by the rules committee is a modification of that introduced late Wednesday by Representative Champ Clark, the minority leader, and which in turn contained the basic principles of the resolution introduced more than a month ago by Mr. Shirley of Kentucky.

Closes the President's Program.

Washington, June 17.—The bill giving statehood to New Mexico and Arizona—the last of the remaining territories—has passed the senate and will now go to conference. This finishes about all the administration measures in the senate.

TOO FAST A PACE

In Trying to Keep Up With It Young Man Faces Prison.

Anderson, Ind., June 17.—When he was sentenced to serve from two to fourteen years in the Indiana reformatory at Jeffersonville on his plea of guilty to an indictment charging him with embezzlement, William J. Ryan, aged twenty-four, a graduate of the Indianapolis high school, swooned. In confessing his crime he told Judge Bagot, in circuit court, that he made his first serious misstep after he came here by trying to live beyond his means and to keep company with associates who were not dependent on salaries.

Young Ryan had a good time, dressed well, moved in the best social set and was hailed as a good fellow. The pace of living that he took up was too fast for his legitimate salary, however, and he felt the pangs of regret after it was too late. He was accused by the Remy Electric company with having embezzled \$30 or more by padding payrolls at the works and pocketing the money credited as salaries to "straw men."

VACANCY NEEDED

And That Is Why Mr. Stutesman Is Coming Back From Bolivia.

Washington, June 17.—James F. Stutesman of Peru, Ind., American minister to Bolivia, has resigned. His resignation was brought about indirectly by the nomination of F. W. Carpenter of Minnesota, former secretary to the president, to be minister to Morocco. Mr. Carpenter displaced H. Percival Dodge of Massachusetts. In order to find a new post for Mr. Dodge it was apparently necessary to create a vacancy. Hence Mr. Stutesman's retirement. Mr. Stutesman was appointed to the diplomatic service June 5, 1908. He was a former member of the Indiana legislature. He is now in this country on leave of absence. He had come up here to get married.

Farmer Killed by Lightning.
Marion, Ind., June 17.—Simon Conn, aged fifty-three, a farmer of Grant county, was instantly killed by lightning while hoeing in his garden.

GOING TO DO TEAM
WORK IN CAMPAIGNThe Two Jims, Sherman and
Watson, Join Forces.

Washington, June 17.—Vice President Sherman and former Representative James E. Watson of Indiana, conferred with the president with respect to the sort of campaign the Republicans shall conduct this year. Sherman and Watson have been delegated to lay the foundation for the campaign. A little later they will make a swing around the circle arm in arm, in behalf of the party in power. Watson said that the purpose of their talk with the president was to arrive at some definite understanding as to the character of the "gospel" that is to be preached. The president, of course, wants the record of his party defended, and he looks on Sherman and Watson as the kind of men who can put up a substantial defense. Watson is now devoting the whole of his time to the congressional campaign committee.

RENOMINATED

"Straight" Democrats of Tennessee Name Patterson to Succeed Himself.

Nashville, Tenn., June 17.—Governor M. R. Patterson and a full ticket were nominated by the straight Democracy of this state in convention here, and a platform adopted which indorses his administration and demanded the repeal of the prohibition laws and the re-enactment of the laws which formerly stood on the statute books.

The coalition of the bolting Democratic judges with the Republicans is scathingly arraigned and the hypocrisy of the union laid bare.

The Garden.

The garden must be mellow, rich and kept clean. This is the inside secret of successful gardening.

CONTEST SUNDAY BASEBALL.

State Files Reply to Brief Submitted
by Appellant.

That the Broley law, which permits the playing of Sunday baseball, is unconstitutional and that the Marion Criminal Court did not err in overruling motion of the defense for a new trial are among the contentions in a brief filed yesterday in the Supreme Court by Attorney General Bingham and associate counsel. The brief was filed in the case in which Charles Carr who is manager of the Indianapolis Baseball Club, was convicted of following his usual vocation on Sunday and was in reply to a brief filed by Carr's attorneys, who carried the case to the Supreme court.

"The state contends," said the brief of the state, "that so much of the act as undertakes to exempt such persons from the operation is in violation of Sec. 23, Art. 1, of the constitution of the state of Indiana: 'The General Assembly shall not grant to any citizen or class of citizens privileges or immunities which upon the same terms shall not equally belong to all citizens.'"

The law which is being contested was introduced in the last legislature by Thomas Broley, of North Vernon, who spent practically his entire time in the session working in the interests of this measure.

New York Has Completed Reception Plans.

ANXIOUS ABOUT THE WEATHER

While the Committee Has Cared For the Details of Decorations and Monster Parade, It Cannot Guarantee Sun, and Everyone Is Hoping For Fine Weather, That Nothing May Mar the Colonel's Homecoming.

New York, June 17.—The time when Colonel Roosevelt will plant his feet on Manhattan is drawing so close that the reception committee is getting anxious about the weather. All of the arrangements, the multitude of details which had to be worked out, have been completed, but the committee can't guarantee sun. Rain would play hob with the decorations up Broadway and Fifth avenue and make things extremely unpleasant for the carriage loads of senators and congressmen and dignitaries who expect to follow the colonel up town.

They are particularly concerned at the reception committee headquarters today. They want the colonel to see flags wherever he looks. Assistant Secretary Harwood of the committee says that the indications are that the decorations will lay over anything of the kind New York ever saw. It is a little uncertain at what exact time the ship will get to Quarantine. It is possible that she will come up as early as 4 o'clock tomorrow morning and that she will be there surely by 6 o'clock. The revenue cutter Manhattan, with Mr. Loeb and some of the intimate friends aboard, will leave the foot of West Eleventh street at 6:45 a. m., and will take the colonel off the Kaiserin at 7:45. The revenue cutter Androscoggin, with the reception committee, a few governors and representatives of other governors, will leave at 7:45 and will take him on board after he has breakfasted. After the colonel has received letters of welcome from Mr. Taft and Governor Hughes and has greeted Cornelius Vanderbilt and the members of Mayor Gaynor's committee the water parade will start from Quarantine at 9:30.

Each division will fall into line in its proper place as the Androscoggin passes up the bay. The column will round a stakeboat in the North river off Fifty-ninth street and will then go back to the Battery. Colonel Roosevelt will be landed on Pier A at 11 a. m. sharp. In the reception stand in Battery park Mayor Gaynor will deliver a brief speech of welcome, to which the colonel will reply briefly. On the stand with Roosevelt and the mayor will be 500 guests and arrangements have been made to accommodate 2,500 more in an adjoining stand. The police expect 25,000 people to be crowded around the stands. On the stand with the colonel will be cabinet officers, senators and congressmen, members of diplomatic corps, state governors, mayors and other dignitaries. The committee has provided place in the parade for 32,500 men, but it is thought that organizations not provided for will be permitted to fall in line and that there will be 50,000 riding or marching with the colonel.

Police Commissioner Baker has arranged to have 4,461 policemen on the job of keeping order. Sixteen inspectors, forty-eight captains and 127 lieutenants will command the men all the way from the Battery to Fifty-ninth street, and the line of march will be between bluecoats all the way.

Second Attempt Successful.

North Vernon, Ind., June 17.—"Yeggs" cracked a safe in the post-office at Brewster and escaped with \$400 in cash and checks. The safe was ruined and a hole was made in the roof of the postoffice building. A few months ago the safe withstood an attempt to crack it.

THE NATIONAL GAME

SIGNALS OF DISTRESS

Seymour People Should Know How to Read and Heed Them.

Sick kidneys give many signals of distress. The secretions are dark, contain a sediment. Passages are frequent, scanty, and painful. Backache is constant day and night. Headaches and dizzy spells are frequent. The weakened kidneys need quick help. Don't delay! Use a special kidney remedy.

Doan's Kidney Pills cure sick kidneys, backache, and urinary disorders.

Seymour evidence proves this statement.

Mrs. Robert Metz, 314 W. Brown street, Seymour, Ind., says: "I consider Doan's Kidney Pills the best medicine I ever used. Another member of my family also took this preparation with great benefit. We are never without a supply of Doan's Kidney Pills in the house."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

ADVERTISED LETTERS.

The following is a list of letters remaining at the postoffice at Seymour, Indiana, and if not called for within 14 days will be sent to the dead letter office.

EDWARD A. REMY, P. M.

Saved from Awful Death.

How an appalling calamity in his family was prevented is told by A. D. McDonald, of Fayetteville, N. C., R. F. D. No. 8. "My sister had consumption," he writes, "she was very thin and pale, had no appetite and seemed to grow weaker every day, as all remedies failed, till Dr. King's New Discovery was tried, and so completely cured her that she has not been troubled with a cough since. It's the best medicine I ever saw or heard of." For coughs, colds, lagrippe, asthma, croup, hemorrhage, all bronchial troubles, it has no equal. 50c, \$1.00. Trial bottle free. Guaranteed by Andrews-Schwenk Drug Co.

Frogs Plentiful.

A number of Seymour people have been catching frogs in great quantities of nights recently along the banks of the Muscatatuck, but James Hobson broke all records Wednesday night and came in with ninety-one frogs.

Wants to Help Some One.

For thirty years J. F. Boyer, of Fertile, Mo., needed help and couldn't find it. That's why he wants to help some one now. Suffering so long himself he feels for all distress from backache, nervousness, loss of appetite, lassitude and kidney disorders. He shows that Electric Bitters work wonders for such troubles. "Five bottles," he writes, "wholly cured me and now I am well and hearty." It's also positively guaranteed for liver trouble, dyspepsia, blood disorders, female complaint and malaria. Try them. 50c at Andrews-Schwenk Drug Co.

A letter from Tulsa, Okla., states that Charles Hancock, who has been in poor health for some time, is very much improved but that Mrs. Hancock is in poor health and was recently taken to Kansas City for an operation.

Banks on Sure Thing Now.

"I'll never be without Dr. King's New Life Pills again," write A. Schinco, 647 Elm St., Buffalo, N. Y. "They cured me of chronic constipation when all other failed." Unequaled for biliousness, jaundice, indigestion, headache, chills, malaria and debility. 25c at Andrews-Schwenk Drug Co.

Philip Fettig is moving from the Read-Jordan addition to the property which he recently purchased of Mr. and Mrs. U. F. Lewis on Sixth street. The residence which they are vacating will be occupied at once by Mr. and Mrs. C. E. Layton, of Kokomo.

Mr. and Mrs. Fred Kasper have their new five-room residence on E. Seventh street about completed and will move into it next week.

Jesse Collins, the barber on Indianapolis avenue, has been confined to his home on W. Third street for some time on account of sickness, but is improving slowly.

CROWDS THRILL
AT AIR FLIGHTS

Indianapolis Aviation Meet Full of Sensation.

PROVING A GREAT SUCCESS

Exhibitions of Graceful Aerial Maneuvers by the Wright Sky Pilots Attended by Many a Thrill, and the Crowds Are Kept Keenly Interested—Bad Accident Was Narrowly Averted When Aviator's Engine Went Dead High in Air.

Indianapolis, June 17.—The bird men who faced crowded bleachers and a packed grandstand at the Indianapolis motor speedway yesterday afternoon were not cheery in their predictions of the flights they would make, for there was a strong wind blowing from the north and it was admitted that even the Wright brothers' biplane is not a certain starter when the elements are contrary. Brookins had made a successful flight into a thirty-mile gale, but he did not hanker for any more of it, and it was admitted that he is the nerviest of all the flyers on the ground. Brookins made another attempt to break his own record for altitude and it was reported that he had reached a height of 5,000 feet and the crowd went wild. Ten minutes later it was found that a mistake in reckoning the height had been made and that he reached only 3,700 feet. He was in the air fifty-two minutes, the longest period for any aviator at the present meeting.

There was intense excitement during a flight by Arch Hoxsey in a Wright biplane. When the aviator was 200 feet high his motor stopped, but the operator kept his falling machine on a level plane and glided on a sharp slant into an adjoining field, landing without mishap to either self or machine.

Brookins made a flight in a race with a wind wagon, an automobile driven by a propeller, the same as used on airships. The wind wagon traveled the speedway track, while Brookins soared high above in the air. The exhibition had no thrills and no time was announced. Brookins and Welch then gave an exhibition of flying aeroplanes in opposite directions, turning near the south bleachers.

Brookins next gave an exhibition of short turning. He thrilled the crowd by tilting the big biplane until it seemed it would turn turtle, but he brought it right by a clever use of the control. Brookins remained in the air twenty-five minutes. Welch and Johnstone attempted a two-passenger jaunt through the air, but were able to make only two circuits of the course. Arch Moxsey followed with an exhibition flight.

Brookins put on the real thrill of the afternoon in an exhibition of short turning. He circled the course, then returned to a point near the south turn and deliberately stood his machine on end while at an altitude of 100 feet. A. P. Warner, the official timekeeper, announced the time to have been made in six and two-fifths seconds and to be a world's record for short turns.

The Dayton inventors are now at work on a high-speed machine to be used in the international aviation meet in New York in the fall, and it is likely that Arch Moxsey, one of the Wright aviators, will operate this machine. It will have almost double the power of the present Wright machine and is expected to develop great speed.

THE WEATHER

Washington, June 17.—Observations of the United States weather bureau, taken at 8 o'clock p. m., Thursday, follow:

SUNDAY SCHOOL LESSON

JUNE 19, 1910

THE PARABLE OF THE SOWER. Lesson:—Matt. 13: 1-9, 18-23.

GOLDEN TEXT:—Wherefore putting away all filthiness and overflowing of wickedness, receive with meekness the implanted word, which is able to save your souls.—James 1:21.

We step back quite a bit in the order of events to take up this and the next lessons on the "Mysteries of the Kingdom," but perhaps it does not matter much how we step if only we step into the light and keep step with our blessed Lord in His thoughts and purposes. Although verses 10 to 17 are not included in our lesson we must look at them, as there we find the reason why He taught in parables. The rulers having determined to kill Him (xii, 14) our lesson chapter opens with the statement that the same day He went out of the house and sat by the seaside. A simple statement of a fact, but very suggestive of another fact—that He was about to go out from the house of Israel and begin to gather from the sea of nations another people during this age who will reign with Him in the next or kingdom age (Matt. xlii, 37-39; Acts xv, 14-18).

When the disciples asked Him why He taught in parables, His reply was, "Because it is given unto you to know the mysteries of the kingdom of heaven, but to them it is not given." And then he quoted from Isa. vi the prophecy concerning this blindness. The kingdom of God, or of heaven, was no mystery, for it was plainly revealed in all the Old Testament. The sufferings and glory of the Messiah were all fully revealed, but that there should be a long period between the sufferings and the glory, that the kingdom would be at hand and then postponed for a whole age, this was not revealed until by the Lord in these parables, and later to and by Paul. A concordance will enable any one to see that the word "mystery" is used of God in Christ, Christ in His people, the blindness of Israel, the resurrection of the just, the development of iniquity, the end of this age. This whole age between the rejection of Christ and His coming again in glory is the time of the mysteries of the kingdom which our Lord sets forth in these seven parables of this chapter. Mark and Luke each give the first one—the parable of the sower—the understanding of which seems all important, for our Lord said when asked for its significance, "Know ye not this parable? And how, then, will ye know all parables?" (Mark iv.)

From our next lesson we learn that the field is the world (verse 38), and we must bear in mind that it is a world lying in the wicked one and that he is the god of it. It is an evil age and ever growing worse as far as the fear of God is concerned (1 John v, 19; II Cor. iv, 4; Gal. i, 4; Rom. xii, 1, 2; II Tim. iii, 1-5). Alongside of unparalleled progress on many lines there is unparalleled iniquity, unbelief, rejection of the Bible as the word of God and of the deity of Christ and of His atonement for sin. We are nowhere taught to expect any improvement in these matters during this age, but we are faithfully to sow the seed of the word of God everywhere and expect just what we are taught in this parable. Some set their hearts on certain results and say we must have this or that, we must have fifty or a hundred conversions, we must have a revival, the town must be taken for God, etc. Happier are those who are in harmony with the Lord and who rest on His assurance that His word will accomplish that which He pleases (Isa. lv, 11). It is incorruptible seed, the word of life, and He has promised to watch over it (I Pet. i, 23; Acts v, 20; Jer. i, 12, R. V.). The hearts of men are the soil, and some are beaten so hard by the going to and fro of the things of this life that the seed can scarce find entrance, and the devil is always watching to catch it away lest they should believe and be saved. Other hearts are hard within, rocky hearts, but with enough soft soil to receive the seed. Such appear to enjoy the word; they say it does them good, they receive it gladly, but they are easily offended, cannot stand any persecution.

In others the soil is good enough to grow thorns and the seed does find a lodging, and it grows, but the thorns grow so fast that there is no fruit. The cares and pleasures of this life, the deceitfulness of riches, the lusts of other things, choke the word, and no fruit is brought to perfection. In the first two kinds of soil there is no indication of salvation. I am inclined to believe that this third kind of soil indicates a possibility of salvation, but saved as by fire (I Cor. iii, 14, 15). The fourth kind of soil is good by the grace of God. There is an honest reception of the truth. They hear it and understand it and keep it and bring forth fruit with patience, even to thirty, sixty or a hundred fold. All through this age this is what we are to expect and only this. It is ours to sow the seed, the pure seed of the word of God, everywhere and at all times, with confidence in Him that He will accomplish His pleasure by it always. Blessed is that servant whom his Lord when He cometh shall find so doing. Who can estimate the honor of being a laborer with God? Who would not say, "Here am I, send me!" But we must be sure that we preach only the preaching which He bids us, that we carry only His message.

INSTITUTE EXPENSIVE.

State Superintendent Says They are Very Important.

The relation of play to education, methods of raising library funds, suggestions to teachers and the importance of the township institute are discussed in the outline of township work for 1910 and 1911, which is to be sent out in a few days from the office of Robert J. Aley, state superintendent of public instruction. The booklet was prepared by Dr. Aley and E. G. Brummell, assistant superintendent.

"The township institute," says Dr. Aley in the preface of the book "costs the state a large sum of money. Whether the state gets value received in return depends upon the attitude and work of teachers and school officials. The institute has been a great factor in the improvement of our schools. Patrons should be encouraged to attend the meetings, to participate in discussions and occasionally to lead in the presentation of some topic."

Teachers are instructed during September to take careful notice of the language used by their pupils and to record all errors observed, and during September and October to observe spelling. Entertainments are suggested for raising funds for library purposes.

Ends Winter's Troubles.

To many, winter is the season of trouble. The frost bitten toes and fingers, chapped hands and lips, chilblains, cold sores, red and rough skins prove this. But such troubles fly before Bucklen's Arnica Salve. A trial convinces. Greatest healed of burns, boils, piles, cuts, sores, eczema and sprains. Only 25c at Andrews-Schwenk Drug Co.

Mr. and Mrs. Thomas A. Ackley and Mr. and Mrs. Thomas Graham, of Washington, were the guests of Mr. and Mrs. N. M. Carlson Wednesday night and went to Indianapolis Thursday to attend the aviation meet.

Noble Moore took his little daughter, Wilma, to Columbus Thursday where she will have her tonsils removed at the Roupe sanitarium.

Mr. and Mrs. James Burke and children of South Broadway, went to Indianapolis today to spend several days.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.

HEAVY TRAFFIC.

S. I. Doing Largest Business in History of Road.

Regarding the heavy business on the Southern Indiana the Bedford Democrat says:

"Col. H. P. Radley, general passenger and freight agent of the Southern Indiana railroad, is in the city today. He says that the Southern Indiana is at this time doing more business than at any other time in the history of the road. This is especially true as regards the stone and coal traffic. The road is hauling more coal now than at any time before the strike was called. This is in some measure due to the fact that the Illinois miners are not at work while those in the Linton district have a working agreement until the wage question is settled. There is also more stone being shipped out of Bedford over the Southern Indiana than at any time previous in the road's history, in addition to the fifteen cars loads of spawls a day that are shipped to the Gary steel plant."

Want Their Salaries Raised.
Indianapolis, June 17.—The county superintendents, at their state meeting decided that they ought to be better paid, and they appointed a legislative committee to see the legislature about it next winter.

"Home Again!"

The Return of Roosevelt

Plans for the Reception in New York—His Western Tour—Will He Run for the Presidency Again?

By JAMES A. EDGERTON.

WHEN THE KAISERIN AUGUSTE VICTORIA PASSES THE STATUE OF LIBERTY.

[Copyright, 1910, by American Press Association.]

WHEN Colonel Theodore Roosevelt, faunal naturalist, college lecturer and first citizen, steams up New York bay on June 18 he will be met by a reception committee of all the noises that ever have been and some others that are manufactured for the occasion. A faint suggestion of these acoustic disturbances would look something as follows:

Crack! Boom! Toot-toot! Hurray! Has anybody here seen Teddy? Three cheers! (Followed by three cheers and several more.) What's the matter with— Oh, you Teddy! Siss-boom! T-o-o-o-o! Whoop! Wow! Roosevelt forever! He's coming! Y-e-e-h-o-o-o! Bing! Bang! Tump-tump-tump! Ow-ow-ow! Hurray for Teddy! Hoop-la! Hail to the chief! My country, tis— Toot! Boom! Crash!

Raise this to the nth power, then prolong it indefinitely, and you will have the beginning of a hint of what will happen on this noisiest of days.

It will be a wonder. Everybody will be in New York that day either in person or by proxy. And everybody that is at all vociferous will be making some kind of sounds. Most of these sounds will be loud—at least as loud as their authors can contrive. The din thereof will have New Year's night and the Fourth of July rolled into one and then have enough noise left over to supply a large and busy collection of boiler factories.

Twenty Thousand In Line.

The official program of the Roosevelt reception in New York catalogues the event somewhat as follows: The entire reception committee, headed by Chairman Vanderbilt, will steam down the bay to meet the Auguste Victoria on Saturday morning, June 18. It will take the colonel aboard and return to the Battery with all the craft following that can possibly get in line.

"THE WORLD IS MINE!"

Embarking at the Battery, Colonel Roosevelt will be officially welcomed by Mayor Gaynor. Then a land parade will take the place of the one on water, and the former president, former African hunter, former grand adviser and former and present big noise of three continents will ride up Broadway, preceded by the mounted police, mounted band and escort of rough riders and followed by everybody in the United States that has been able

to get a place in the procession. It is estimated that there will be 20,000 men in line. Among these will be the Spanish war veterans, Syrians in fezzes, Mayor Jim Dahlman of Omaha with cowboys, Hungarians in national costume and every other nationality that goes to make up the composite product known as the American people.

It seems good, doesn't it? Just like the old days! After a dreary year of Payne-Aldrich tariff, Uncle Joe, the in-

CORNELIUS VANDERBILT, CHAIRMAN OF ROOSEVELT RECEPTION COMMITTEE.

surgeons, Ballinger-Pinchot, Cook-Pearry and forty-seven different kinds of investigations the sound of the voice that has been smothered so long in the African jungles will bring back a feeling of mother and home.

Already there is a dental gleam across the Atlantic, and a fresh snap and vivacity are in the air. Teddy is coming home! Get the old bass drum down from the attic, pull the bunting from the closet under the stairway and take out your vocal apparatus and dust it off. The Teddy bear is once more in fashion, the big stick is waving in the breeze, and the spear that knows no brother is glistening in the sun. The trust busters' march need no longer be played with the soft pedal. Throw back the lid, stand on all the keys at once. Bang! There—that's better! What a relief it is to do it in the good old way!

Wall Street Not Celebrating.

What about the pessimists who predicted that the colonel was certain to get African fever or the sleeping sickness and those other Wall street prophets who hoped that every lion would do its duty? They are all talking small now. Did they imagine that anything in Africa could withstand the Roosevelt luck? What good are Wall street prophets anyway? Most of them cannot even predict the future movements of stocks and so have to depend on a sure thing game of working the lambs for commissions. "A prophet is not without honor save in his own country" was not spoken of the Wall street brand of soothsayer. He is without honor anywhere under the sun.

Wall street is not celebrating the return of the colonel. That is one reason why the rest of the country is celebrating. Possibly the bulls and bears fear that Roosevelt is coming back to start another hunt in the financial jungle. On the way to Khartoum he dropped one significant remark to the effect that he had harder work ahead than that done in Africa. Just what is that harder work to be? Not writing evidently, for he finished his African book before his return to civilization. Possibly the big trust game has reason for being apprehensive. High finances are timid about everything except taking other people's money, and the mere shine of the

Roosevelt eyeglasses and teeth gives them the shivers.

What will he do after his return? That is a question the answer of which is fraught with some moment to this country. Certain gentlemen of the press and of the conservation movement, popularly known as the "return from Elba" crowd, believe he will be a candidate for president in 1912. Certain other gentlemen of the press and of official station, known of all men as friends of the administration, are just as certain that he will get behind Taft. A man of the name of Herron—George D. Herron—expatriated as I recall because of certain matrimonial complications, thinks Roosevelt will become not only president, but virtual emperor, that he will end the republic and that he will be the beginning of "the new dark ages." Thus the thing is seen to be not without an element of the fantastic, especially when dealt with by a fantastic mind. It is perhaps as well to keep ourselves within the bounds of sanity when dealing with Roosevelt or with other things.

Will Go to Cheyenne.

As to whether he will or will not become a presidential candidate he alone can answer. Of only two things are we sure—that he will have the greatest reception ever given an American citizen on his homecoming and that he will go to Cheyenne in August and presumably will greet certain berries and swarms of delighted citizens on the way and back. This much will come of the suggestion of a western editor that the colonel return by way of San Francisco and tear up the vocal apparatus of the country on his way east. That he could not do because it would bring him home too late for his son's wedding. But he yielded to the suggestion to the extent of taking a later round trip to Cheyenne. Beyond these meager details it is given out that he will lecture, write books and help to edit the Outlook. What else the future holds for him and for the American people and Theodore Roosevelt himself alone can tell.

Certain it is that he will have plenty to do after he informs himself of what has taken place during his fifteen months' absence, and whatever he does it will keep the country on the jump. It is impossible that his perennial energies should be bottled. They will find an outlet, and a political outlet at that. Of late the advices have linked his name with an ambitious tour of twenty-four states, with an address at one big mass meeting in each. This tour is to be made in connection with the Cheyenne trip, and the fortunate commonwealths included are as follows:

New York, Ohio, Indiana, Illinois, Wisconsin, Minnesota, South Dakota, Nebraska, Wyoming, Colorado, Kansas, Oklahoma, Texas, Louisiana, Alabama, Georgia, Tennessee, South Carolina, North Carolina, Virginia, Pennsylvania, Maryland, Delaware and New Jersey.

Walter Wellman, who has been with him on the European tour, intimates that if the country demands it Roosevelt will again run for president. By the way, Wellman in one of his letters has a touch that is too good to be lost. It recounts how a young Englishman came down to the wharf in Egypt to see the former president. He gazed long and earnestly at that picture of health. Then he turned and said:

And just to think that man is now returning from a year on the equator! They tell me he has been out day after day eight, ten, twelve hours in the scorching sun. He has waded marshes up to his neck. He has fought his way through papyrus and reeds and ooze and mud. He has never had a day of fever or met a touch of dysentery. Look at him and look at me, as I have been down here 700 miles from the equator only one year.

I have tried to take care of myself. I have been in no swamps, done no hunting, saved no mosquitoes. I am a wreck—have had fever, have had dysentery, have taken barrels of medicine, have been in hospitals and am now going home. I am

RECENT SNAPSHOT OF COLONEL ROOSEVELT.

a shadow of my former self. That is the way with most of those who come down into this country, which is no place for a white man. We go bad. We waste away. But look at this Mr. Roosevelt. Isn't he a wonder?

Here at home we who have known him all his life and who are of all shades of political opinion concerning him must echo that sentiment—isn't he a wonder?

D.D.D. CURES OLD BLOOD TROUBLES

The only possible way to cure Contagious Blood poison is to remove the cause by purifying the blood. This is just what S. S. S. does; and it is the only medicine that absolutely and thoroughly cleanses the circulation of every particle of the germs and virus of the disease. Mercury, Potash, and other strong minerals are often used in the hope that such powerful treatment will kill the germs, but this can not be done, and when the mineral medicines are left off the trouble always returns with its aggravating symptoms of ulcerated mouth and throat, skin eruptions, falling hair, yellow skin spots, swollen glands, and often running sores. The ability of S. S. S. to cure Contagious Blood Poison comes from its unflinching blood-purifying properties. It goes into the circulation and removes every trace of the infection, makes the blood rich and healthy, and leaves no dregs of the virus to break out later on. S. S. S. does not contain a particle of mineral in any form, but is made entirely of roots, herbs and barks each of which has a direct and specific action in cleansing the blood. In addition it contains the extracts of certain botanical herbs which make it the finest of all tonics, which is a necessary quality for a medicine in curing Contagious Blood Poison. Home Treatment book, containing much valuable information and instruction to be found nowhere else, will be sent sealed and post paid, free to all who write and request it.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

FIRMLY UNITED

Fifth District Republicans Preparing For a Winning Fight.

[Special Correspondence.]

Indianapolis, June 16.—The Fifth district Republican congressional convention will be held June 30, at Martinsville, opening at 11 o'clock a. m. Seven counties are in the Fifth, and they include Clay, with 19 delegates; Hendricks, 16; Morgan, 15; Parke, 15; Putnam, 13; Vermillion, 13; and Vigo 15, a total of 142. Delegates will be made June 24, all counties in the district naming delegates the same day, under the fair play rule laid down by the Republican state central committee and the state convention. Frank Tilley, of Terre Haute; Roy Shattuck of Brazil; E. M. Blessing, of Danville; former Congressman George Faris, and Joseph Catlin, of Terre Haute, are possibilities. Mr. Shattuck is a receptive candidate. Mr. Faris is in New York City, but many of his friends express a desire that he shall return to the old Fifth and get into the political game once more. The nomination is to be made in the friendliest possible spirit. The nominee is to be a Republican on whom all Republicans can unite, and it is the generally accepted belief that the nominee will be elected. Not in years have the Republicans of the Fifth district been so well united and so fully aroused to their opportunity as they are at this time. The tremendous split in the Democratic organization has made an opening for Republican success, and assurances of aggressive interest on the part of the Republican state central committee has enlivened the old Fifth to an unusual degree.

As a matter of fact, there has never been the least reason to feel, in any quarter, that the state Republican organization was centered on any particular part of the ticket. The state central committee has refrained, very properly and sensibly, from meddling in congressional matters previous to nominations. But that fact does not go to indicate that there has been any lack of interest in congressional success. The state central committee has been concerned to the extent that there has been a strong desire to see the strongest possible congressional candidates nominated. But there can be no possible complaint that any interference has taken place in any district. President Taft and the Republican congressional campaign committee have expressed an interest in the Indiana congressional fight, and the word has gone forth from the head of the Republican party, and from the national chairman, that Indiana Republicans are called on to send a Republican majority to Washington next March. This includes Senator Beveridge. It also includes the fighters who are to lead in the thirteen districts of the state. It takes in all who have been nominated, and it includes all who yet are to be chosen. Nor is the importance of the legislature to be lost sight of in the congressional struggles. Nor are the state and county tickets, and the judicial tickets to be put aside for a minute. The fight is a Republican party fight on the broadest possible lines, and it behooves the workers to pick winners all up and down the ticket.

There has been much interest over the state in the question as to who would be chosen to succeed Luman K. Babcock as joint representative in the Indiana legislature from the Lagrange-Stauben district. Maurice McClew, a young and talented attorney of wide popularity, has been nominated. Mr. McClew comes from Angola. He was not opposed for the nomination. It is confidently predicted that he will be elected by a good majority, and he is expected to rival the good record made by Mr. Babcock, who now is serving well as secretary to Mayor Lew Shank of Indianapolis. Mr. McClew is instructed and pledged for Senator Beveridge, and for the maintenance of the local option law.

Fourth district Republicans are up and coming, in spite of the fact that their district is regarded as hopelessly Democratic. State Chairman E. M. Lee has been down in that section for a day or two, and yesterday attended a meeting of the Republican editors and county chairmen at North Vernon. Jacob Bauer, the hard-hustling district chairman, was present at the love feast, and organization talks were the rule. Down at Linton the day before Oscar E. Bland, Republican nominee for congress in the Second district, gave a dinner for the editors and the county chairmen and other workers.

State Chairman Lee returned to In-

diapolis last night to arrange matters in order that he might make the trip to New York city, where he is to be at the dock when Theodore Roosevelt lands, Saturday forenoon. The state Republican committee is to be there officially, and on special call from the Roosevelt reception committee, to extend to the former president a real Indiana greeting and congratulations on his safe return.

Ninth district Republicans, including District Chairman George Palmer of Sheridan, Fred Sims of the state organization, and the county chairmen of all the counties in the district met at the Claypool hotel yesterday to plan for a winning organization. E. E. Neal of Noblesville, the Republican congressional nominee, spoke to the county chairmen on the coming congressional campaign, and assured the workers that he was prepared to put his heart and soul into the fight.

SENATOR BEVERIDGE GAINS STRONG POINT

The Statehood Bill Given Precedence In the Senate.

Washington, June 16.—The statehood bill was made the order of unfinished business in the senate late yesterday afternoon after a very lively parliamentary bout between the friends of statehood and its enemies. Just after the senate disposed of the conservation bill, Senator Beveridge, chairman of the committee on territories, was on his feet to make a motion. Senator Kean of New Jersey was ahead of him, though, and caught the vice president's eye and moved to adjourn, steadfastly resisting the urgent plea of Senator Beveridge that he be allowed to make a motion to take up the statehood bill. The friends of the statehood bill gathered in the aisle and were demonstrative. "Vote it down," urged Senator Bailey, and Senator Kean's motion was lost in a chorus of noes.

The conservation bill, providing for the withdrawal of public lands by the president, another of the administration bills, as it passed the senate was not materially amended as it came from the house save for the adoption of a rider appropriating \$50,000,000 for the completion of existing reclamation projects in the far western states. The house already has passed an administration conservation bill and the bill will now go to conference.

HER PHYSICIAN APPROVES

Taking Lydia E. Pinkham's Vegetable Compound

Sabbatus, Maine.—"You told me to take Lydia E. Pinkham's Vegetable Compound and Liver Pills before child-birth, and we are all surprised to see how much good it did. My physician said 'Without doubt it was the Compound that helped you.' I thank you for your kindness in advising me and give you full permission to use my name in your testimonials."—Mrs. H. W. MITCHELL, Box 3, Sabbatus, Me.

Another Woman Helped. Graniteville, Vt.—"I was passing through the Change of Life and suffered from nervousness and other annoying symptoms. Lydia E. Pinkham's Vegetable Compound restored my health and strength, and proved worth mountains of gold to me. For the sake of other suffering women I am willing to should publish my letter."—Miss CHARLES BARCLAY, R.F.D., Graniteville, Vt.

Women who are passing through this critical period or who are suffering from any of those distressing peculiarities to their sex should not lose sight of the fact that for thirty years Lydia E. Pinkham's Vegetable Compound, which is made from roots and herbs, has been the standard remedy for female ills. In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound.

W. C. BEVINS

SOUTH CHESTNUT STREET

NEWSY PARAGRAPHS.

Mrs. Alta Kelley is improving from an attack of illness.

At Mitchell recently a man was arrested upon the charge of desertion, but when the matter came up before the court it was found that the parties had never been married.

The Pennsylvania line is still at work on a number of new steel bridges south of here. They are being built very solid and will rest on stone abutments.

A crowd of about fifteen Hunyaks came in here from the north late Thursday afternoon, over the Pennsylvania line, and were transferred to the Southern Indiana for the Linton coal fields.

Judge Joseph H. Shea went to New Albany this morning to conduct court where he has been appointed special judge in a case. Meanwhile court at Scottsburg has been adjourned for a few days.

The Modern Woodmen of Columbus will hold memorial services next Sunday in memory of the deceased members of the camps. A number of the local Woodmen are making arrangements to attend the exercises.

The squirrel season opens July 1, and many hunters from this city will probably be ready for the opening day. There has been an erroneous opinion among many that the season opened June 1, but the game law provides that squirrels may be killed from July 1 to September 30.

George W. Miles, the newly appointed fish and game commissioner took charge of his office Thursday. He will maintain the main office in the state house since the Governor has required him to live at Indianapolis. The new commissioner will appoint two deputies, one for the north part of the state and one for southern Indiana. He stated that chief deputy Earl will be retained for the present. Mr. Miles said that he had some laws which he expected to obtain at the hands of the legislature but had nothing yet for publication.

A number of the farmers of this county have reported that the joint worm has done much damage to the wheat crop this year. Regarding this insect it is interesting to note that Purdue University reports that nothing can be done for the present crop. It is claimed that if the stubbles were plowed under deep after the harvest the worms would all be destroyed by fall. If this is not done it is suggested that a good seed bed be prepared and fertilized heavily in order to force a strong and vigorous growth.

JAMES E. WATSON

Billed For an Arm-in-Arm Campaign Tour With Sherman.

MOURNED AS DEAD FOR TWENTY YEARS

Indiana Man Another Modern Enoch Arden.

Lafayette, Ind., June 17.—Mourning as dead for twenty years, his wife in the meantime remarrying, Frank T. Smith has appeared in the superior court here as a prominent figure in a

lawsuit in which his son, Lawrence H. Smith, is seeking to recover possession of a tract of rich farm land which his mother disposed of several years ago by selling it to Harrison B. Wallace of this city.

Smith's return to his home here after the long absence was a great surprise, and the story is not unlike that of Enoch Arden.

It was a score of years ago when he left home without telling his family where he was going, and his wife, Mrs. Effie L. Smith, waited year after year to hear from him. Finally, believing him dead, she married John Wilson. The woman had inherited from her father, Joseph Graves, a large farm in Jackson township, this county, and a few years ago sold it to Mr. Wallace.

Under the laws of Indiana a married woman cannot execute a deed without her husband joining in the transaction. In the deed which was given to Wallace, the name of John Wilson appeared as the woman's husband. In the suit now in progress, Lawrence H. Smith claims that Wilson was not the legal husband of his mother, and therefore could not join in the execution of a deed. On this ground he bases his fight to recover possession of the land formerly owned by his mother.

Baby Abandoned on Junk Pile.

Lafayette, Ind., June 17.—Abandoned by a heartless mother, a newly born girl baby was found concealed beneath a dishpan on a pile of rubbish in a ravine near Eighteenth and Rush streets. Jasper Wilson was searching for junk there when he heard the feeble cries of the child. Lifting the pan, he found the babe wrapped in a copy of a newspaper. The police were immediately notified and the babe was taken to the Martha home, where medical aid was given it.

The National Trades and Workers' Association has tendered to Colonel Roosevelt the presidency of the association for one year from date of his acceptance, with an offer of \$100,000 for the year's service.

How Would You Like to Own a Home of Your Own?

A Few Shares of Stock Taken in the

NEW BUILDING AND LOAN ASSN.

Will Soon Enable You to Do This.

This association is doing business on what is known as the Perpetual plan, by which stock may be taken out at any time. A separate account is kept for each individual stockholder, who is at liberty to inspect the same whenever he desires, and the maturity of whose stock does not depend upon the action of any other stockholder. Advance payments of dues tend to shorten the maturity of the stock. In other words, the more you pay and the quicker you pay it, the sooner your stock will mature or run out. This is a valuable feature and should be appreciated.

SEE THE SECRETARY,

HARRY M. MILLER
FOR FURTHER INFORMATION.
